PROFESSIONAL SUMMARY

Versatile Frontend Developer and Software Engineer with 3.4+ years of experience architecting, developing, and delivering high-performance enterprise web applications. Framework-agnostic User Interface (UI) specialist proficient in React.js, Vue.js, Nuxt.js, Redux Toolkit, Pinia, TypeScript, and modern JavaScript (ES6+). Hands-on experience integrating Artificial Intelligence (AI) models and workflows including OpenAI, Anthropic Claude, Perplexity AI, Large Language Models (LLM API Integration), and Generative AI tools into web interfaces. Proven technical leader with expertise in managing sprint timelines, cross-functional team collaboration, legacy framework migrations, and secure Single Sign-On (SSO) authentication systems.

TECHNICAL SKILLS & COMPETENCIES

Frontend Frameworks & Architecture: React.js, Vue.js (Vue 2 & Vue 3), Nuxt.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Vuetify

AI Ecosystem & GenAI Tools: OpenAI API, Anthropic Claude API, Perplexity AI, Generative AI Tooling, LLM API Integration, Prompt Engineering

Languages & Core Web: JavaScript (ES6+), TypeScript, WordPress, Responsive Web Design

State Management & Web APIs: Redux Toolkit, Pinia, React Context API, Vuex, RESTful APIs, GraphQL, Axios, Single Sign-On (SSO), Azure Active Directory (Azure AD), SAML 2.0, Okta, Firebase Authentication

Software Engineering & Methodology: Agile / Scrum Framework, Software Development Life Cycle (SDLC), Git Version Control, Code Reviews, UI/UX Optimization, Technical Leadership

PROFESSIONAL EXPERIENCE

Software Engineer

02/2023 – Present

Span Technology Services Pvt Ltd

Coimbatore, India

- Architected and scaled high-volume enterprise web applications utilizing React.js, Vue.js (Vue 3), Nuxt.js, TypeScript, Pinia, and Redux across 4 domain-specific software applications.
- Integrated Artificial Intelligence (AI) capabilities, Large Language Model (LLM) API endpoints, and Generative AI features (OpenAI, Claude, Perplexity) into client applications to automate user workflows, dynamic context processing, and smart search capabilities.
- Demonstrated end-to-end technical leadership by driving complex architectural migrations (Vue 2 / Nuxt 2 to Vue 3 Composition API & React Functional Architecture), reducing application type errors by 40%.
- Partnered in cross-functional Agile/Scrum teams with backend engineers, UI/UX designers, and product managers to align frontend engineering deliverables with strategic business objectives.
- Practiced effective sprint time management to consistently deliver high-priority enterprise features on schedule within strict 2-week Agile release cycles.
- Designed and built 25+ reusable UI components and custom hooks for global Single Sign-On (SSO) authentication flows via Firebase Authentication, SAML 2.0, and Okta.
- Optimized frontend architecture using code splitting and dynamic imports, successfully reducing initial page load times by 35%.
- Mentored and onboarded 3 junior developers on modern frontend engineering standards, clean code architecture, and peer code review best practices.

Web Development Intern

03/2022 – 12/2022

Zen N Zeal Pvt Ltd

Coimbatore, India

- Collaborated closely in an Agile web engineering team to design and deploy responsive user interface layouts using HTML5, CSS3, and Bootstrap with 100% cross-browser compatibility.
- Took complete project ownership of corporate WordPress theme customization and plugin integration, successfully delivering an end-to-end e-commerce platform ahead of deadline.

TECHNICAL PROJECTS

Book Discovery & Management Web Application

- Built a high-performance, responsive web application implementing dynamic search, external RESTful API integration, and modular state management.
- Engineered clean component hierarchy and responsive layouts; created detailed technical walkthrough documentation and published source code on GitHub.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science and Engineering

08/2018 – 05/2022

Jansons Institute of Technology, Anna University

CGPA: 7.8/10

HONORS & AWARDS

- **Shine Star Award (Span Technology Services):** Recognized for technical excellence, engineering leadership, dynamic dashboard implementation, and proactive cross-team collaboration.
- **Spot Award (Span Technology Services):** Awarded for exceptional project ownership, Single Sign-On (SSO) pipeline engineering, and rapid execution under demanding project deadlines.
